WILDLIFE HAVEN
REHAB, INC.

Answering the call of the wild...

Wildlife Haven Rehab, Inc. is a non-profit organization devoted to the rescue, rehabilitation, and release of sick, injured, orphaned, or displaced Florida wildlife.

Founded in 1991, Wildlife Haven has earned an impressive reputation for providing comprehensive medical services and compassionate care to wildlife in need.

Our all-volunteer staff provides treatment and surrogate parenting to indigenous species including raccoons, squirrels,

foxes, opossum,

skunks, deer, otter, birds, and many other varieties of wildlife. Each year we save thousands of animals and prepare many orphaned babies for their eventual reintroduction to their native habitat.

As our state's residential and commercial development continues to grow at an astounding rate, we encroach further and further into wild environments, displacing animals and causing them to come in closer contact with humans. Wildlife Haven's rescue and rehabilitative services help answer the "call of the wild" to give nature a better chance at survival.

As a liaison between wildlife and our community, we hope to eliminate ignorance, indifference, and exploitation of wildlife and promote peaceful coexistence between man and his wild neighbors.

We endeavor to educate children and our community to respect, protect, and nurture nature. We also offer community assistance to gently relocate "nuisance" wildlife as a humane alternative to destructive and unethical practices.

Remember, Florida is their home too!
